

The AI Marketing Agency Playbook

How to Start, Scale & Automate Your Own
AI-Powered Marketing Business

By MediaHive AI

Chapter 1: Start Your AI Marketing Agency

The AI marketing agency model is the fastest-growing service business of 2026. Businesses need help growing on Instagram, TikTok, LinkedIn, and every major platform - but most agencies still operate manually. You can build a premium agency powered by AI that delivers 10x output with a fraction of the team.

The Opportunity

- 73% of businesses plan to increase AI marketing spend this year
- Average agency retainer: GBP 3,000-15,000/month per client
- AI agencies operate at 70% higher margins than traditional agencies
- One operator can manage 5-10 clients with the right workflows

Your Agency Stack (Minimum Viable)

- Content AI: ChatGPT, Claude, or MediaHive Genesis Studio
- Video AI: Runway, Pika, or MediaHive Social Pulse
- Scheduling: Buffer, Later, or custom n8n workflows
- CRM: HubSpot free tier or Notion + automated follow-ups
- Website: MediaHive automated sites or Webflow + AI copy

Chapter 2: Workflows That Run Your Agency

Workflows are the backbone of a scalable AI agency. Every repeatable task should be automated - from client onboarding to content delivery to reporting.

Workflow 1: Client Onboarding (Day 1)

- Step 1: Client fills intake form (Typeform/Tally)
- Step 2: AI generates brand voice profile from their website + social
- Step 3: Auto-create Notion client workspace from template
- Step 4: Send welcome email sequence via n8n + Gmail
- Step 5: Schedule kickoff call via Cal.com

Workflow 2: Weekly Content Production

- Monday: AI generates 7 days of posts from content calendar
- Tuesday: Client approves via Slack/email link
- Wednesday: Auto-schedule to Instagram, TikTok, LinkedIn
- Thursday: AI generates Reels/TikTok scripts + video briefs
- Friday: Auto-send performance snapshot to client

Workflow 3: Lead Capture to Close

- Social post CTA -> Landing page -> CRM entry
- AI chatbot qualifies lead within 60 seconds
- Automated email sequence based on lead score
- Booking link sent to hot leads automatically

Chapter 3: Create Amazing AI Videos

Video is the highest-converting content format on every platform. AI video tools let you produce cinematic content without a production team.

The AI Video Stack

- Short-form (Reels/TikTok): Runway Gen-3, Pika, Kling, MediaHive Social Pulse
- Long-form (YouTube): Descript + B-roll from Pexels/Mixkit
- Product videos: Sora-style tools + screen recordings
- UGC-style ads: HeyGen, Synthesia for spokesperson videos

5-Step AI Video Workflow

- 1. Write script with AI (hook in first 3 seconds)
- 2. Generate visuals with AI video tool or stock footage
- 3. Add captions (CapCut auto-captions or Descript)
- 4. Brand overlay: logo, colours, end card
- 5. Export platform-native ratios: 9:16, 1:1, 16:9

Video Content Calendar Template

- Mon: Educational tip (authority building)
- Wed: Behind-the-scenes / process reveal
- Fri: Client result or case study
- Sat: Trending audio remix (TikTok/Reels)

Chapter 4: Transform Any Brand with AI

Use AI to completely transform a client's brand presence - from zero social following to a full digital ecosystem generating leads daily.

The Brand Transformation Framework

- Phase 1 - Audit (Week 1): Analyse current social, web, competitors
- Phase 2 - Strategy (Week 2): AI-generated positioning + content pillars
- Phase 3 - Build (Weeks 3-4): Website, social profiles, workflow setup
- Phase 4 - Launch (Week 5): First 30 days of content goes live
- Phase 5 - Scale (Month 2+): Paid ads, influencer outreach, automation

Instagram & TikTok Growth Playbook

- Post 1-2 Reels/TikToks daily for first 90 days
- Use AI to remix top-performing content in your niche
- Engage 30 min/day on target audience posts (can partially automate)
- Run GBP 500/month in Spark Ads on best organic performers
- Track: followers, saves, shares, profile visits, link clicks

Automated Website Setup

- AI generates copy from brand voice profile
- Template site deployed in 48 hours (MediaHive Genesis Studio)
- Connect: contact form -> CRM -> email automation
- Add: booking calendar, social proof, case studies
- SEO: AI-generated meta titles, descriptions, blog posts

Chapter 5: Pricing & Packaging

Recommended Service Tiers

- Starter (GBP 1,500/mo): 12 posts + 4 Reels + basic scheduling
- Growth (GBP 3,500/mo): 20 posts + 8 Reels + website + workflows
- Scale (GBP 7,500/mo): Full stack + paid ads + AI agents + reporting
- Enterprise (GBP 15,000+/mo): Custom AI systems + dedicated support

Your First 90 Days

- Days 1-30: Set up your agency stack, create portfolio content
- Days 31-60: Land first 2 clients via LinkedIn outreach + referrals
- Days 61-90: Systematise delivery, hire VA, raise prices
